**Restorative Aide Training Manual**

A Knowledge-Outcomes-Impact model for multi-tier systems of behavior support. Positive Behavior Interventions and Support (PBIS) is a research and evidence-based system used in schools across the US and in many other countries to provide consistent school-wide expectations, reinforcement, and discipline practices for students. It is mandated in many US states and required by the federal IDEA Law for students with disabilities.

Restorative care nursing, currently referred to as function focused care, is a philosophy and method of care that enables caregivers to actively help older adults achieve and maintain their highest level of function. This is the only volume written to educate caregivers and administrators about the philosophy of restorative care and how to integrate this philosophy in all types of care settings. This updated second edition contains new content in each chapter along with several entirely new chapters on function-focused care for cognitively impaired adults, ethical issues, and patient-centered

This video series is designed for basic home care aide training and continuous in-service courses for home care aides. These videos provide realistic client care situations to give the viewer a greater understanding of job responsibilities. Skills and procedures are shown in detail, and medical terminology is illustrated with on-screen windows. The revision includes all new footage specifically in a home care setting. New coverage reflect changes in the organization of home care agencies, medicare reimbursement, the impact of managed care on home services, maternal/child care, clients with specific disorders and much more. (in-service, videos, home care aide, home health aide, home health agency training, infection control, restorative care, home care, home care training, home care inservice, homemaking services, home safety, managed care, cerebrovascular accident, AIDS)

Increased attention has been given in recent years to the effects of perinatal substance abuse on infants and children. The demand for programs targeting these populations has spiraled. Based on the experiences of 147 prevention and treatment projects, this guide was prepared as a resource for practitioners and program administrators seeking to establish and strengthen similar programs by providing practical knowledge on common implementation issues. Combining theory with practice, the guide provides common-sense advice, practical suggestions, and experience-based strategies in a user-friendly format.

The purpose of restorative care nursing is to take an active role in helping older adults maintain their highest level of function, thus preventing excess disability. This book was written to help formal and informal caregivers and administrators at all levels to understand the basic philosophy of restorative care, and be able to develop and implement successful restorative care programs. The book provides a complete 6-week education program in restorative care for caregivers, many suggestions for suitable activities, and practical strategies for motivating both older adults and caregivers to engage in restorative care. In addition, the book provides an overview of the requirements for restorative care across all settings, the necessary documentation, and ways in which to complete that documentation.

Barbara Acello, MS, RN

This book is written specifically for RNAs or nursing assistants, to help provide quality restorative care. Author Barbara Acello, MS, RN, offers detailed nursing procedures that do not fall under therapy treatment and must be provided by
your nursing staff. Regardless of whether your facility has a staff dedicated to restorative care, this resource will serve as a much-needed source of critical information that is not taught during regular CNA in-services or educational training.
